

# Zollernspelz

## WINTER SPELT WHEAT

Zollernspelz has been marketed in the UK since 2018. It is a reliable, stable variety with excellent traits.

It can be used both in a conventional system or in organic production in which it is well suited.

Zollernspelz has excellent grain yield combined with high quality and good milling characteristics.

It has strong straw and a robust disease package.

- Zollernspelz has exceptional milling quality with high havgurg and protein.
- Zollernspelz has a very high stable yield potential.
- Zollernspelz is a reliable variety with stiff, strong straw.
- Zollernspelz has good overall disease resistance.
